Profile

Pragmatic learner and dedicated team player in Computer Science, committed to advancing organizational objectives. Eager to expand knowledge and skills while gaining real-world experience, aiming to make impactful contributions and elevate team proficiency.

Projects

Portfolio

- I developed a comprehensive self-portfolio with full-stack java technologies Using Reactjs and JAVASCRIPT. This project demonstrates my ability to design, develop, and deploy a fully functional web application from scratch. Portfolio Link - <https://github.com/Pradeep28122003/portfolio>

Employee Management System – Spring Boot, SQL, and JDBC

- Developed an Employee Management System using Spring Boot, SQL, and JDBC to efficiently manage employee records and organizational data. The system allows HR/admins to perform CRUD operations on employee details, track employee information, and manage job roles and departments. All CRUD operations were performed through Postman by connecting to the Spring Boot backend. Link-<https://github.com/Pradeep28122003/EmployeeManagementSystem>
